

## NUMBER OF WORKING HOURS REPORTED FOR TEACHERS

The number of hours worked by temporary teachers at private establishments or giving private lessons to individuals or in companies is often higher than the actual duration of the lessons due to preparation and correction time.

Therefore, it can be assumed that the number of reported hours exceeds this duration for entitlement to benefits. However, it cannot be greater than:

- ni au double du nombre d'heures de cours réellement effectuées,
- ni au rapport entre le salaire mensuel brut et le S.M.I.C. horaire applicable majoré de l'indemnité monégasque de 5%.
